

Shaping the future of our continent

The European Parliament Elections 23-26 May 2019.

What will Europe look like in 5 years' time? The European Parliament will help decide.

That is why the European Evangelical Alliance wants to encourage Christians across the European Union to pray, to think carefully and to vote in the elections in May.

We have provided a package of short resources to help Christians

1. Understand the power of the European Parliament and its relevance to our lives.
2. Consider their responsibility in this election season.
3. Consider who they might vote for by reflecting on certain questions.
4. Pray as individuals or in small groups and churches.

If you would like to dig deeper and consider the big picture of what is happening politically across Europe, then we invite you click [here](#) to find an overview paper or [here](#) to find the full set of papers.

May the Lord give us wisdom to understand His perspective on our nations and continent and enable us to be a blessing as we pray, think, vote and act.
